BETTER RELATIONS BETWEEN JAPANESE AND KOREANS.

Broadminded and Enlightened Opinion of Premier Hara.

The Keijo Nippo prints an interview its Tokyo correspondent has had with Premier Hara on the question of better relations between Japanese and Koreans. The Premier is quoted to have stated as follows:—

With regard to my opinion and general policy concerning the administration of Chosen, I have declared it on several occasions. As will be remembered, I proclaimed it on the occasion of the reorganization of the Chosen Government-General in autumn, last year, emphasizing in effect that the general policy of the administration of Chosen should be in conformity with the requirement of the times, chiefly for the purpose of enhancing the happiness of the Korean people, so that the complete union of Japan and Chosen, the fundamental principle underlying the annexation of Chosen by Japan may be finally realized. This is exactly the spirit of the policy I am determined to pursue for Chosen, and being infallible for all ages admits of no change whatever. Consequently whoever may be in the post of responsibility for Chosen will never be allowed to deviate from its principle. In fine, the policy I proclaimed for Chosen last year holds true to-day as it did then.

Necessity of Esprit de Corps of Japanese and Koreans.

Some are of the opinion that the Korean people should be treated with a high hand, as they are all time-servers in the truest sense of the word, saying, by way of proving their argument, that Koreans are going from bad to worse in their attitude towards Japan, in spite of the present Governor-General taking a civilized and lenient policy of administration. It is indeed more than once that criticisms of this kind have been directed against our administrative policy for Chosen

this, though students making a special study of the subject are unanimous in holding this view. I myself had much experience confirming it when I was in the diplomatic service at Tientsin and later stayed in Chosen as Minister. To cite a familiar example among others, windows with doors opening on hinges and skylights are to be seen only in Japan and Chosen, but not in China. As everybody knows, Europe is inhabited by several races, and several European countries have as their inhabitants people of one and the same race. In spite of their difference in language, manners and customs, they have something in common in their ideas and feeling, as well as in their action and demeanor. Now, not only have the Japanese and the Koreans ideas and feeling in common, but they are in such a position as to make them inseparable on account of having common interests and common menace. I am glad to say that the Korean people in general are intelligent, as is clearly shown by the fact that they once attained a high degree of civilization. They are a people capable of rapid progress as important components of this Empire of ours. Unfortunately at the present time some of them seem to have given themselves up to self-abandonment, either by revolting against the Japanese régime and diverging from out of the normal way in their action and speech, but the moment they become aware of the real position their country occupies in world politics and see things from a higher point of view, I am sure they will eagerly grasp the hand we extend to them and help in our work of uplifting their fellow-countrymen.

In fact there are already many intelligent Koreans who are in a fair way to better understanding, and many who are fully enlightened with regard to the real

contingency the following should be the guiding principles for the administration of Chosen:—

First: To refrain from desiring to achieve success in a hurry, but to carry on the work with prudence and steadiness. Second: to endeavour to promote the welfare of the Korean people in general in conformity with the policy of administration already mapped out for Chosen, and help them on to self-awakening. Third: to aspire to a complete understanding between the two peoples, so that they will equally share all the advantages resulting from their co-operation in economic, political and educational work. The Koreans should endeavour to see as much as possible the bright side of things, exercising more of their reason and intelligence, and Japanese should treat Koreans with love and kindness. By so doing they will help to attain the great object of the union of Japan and Chosen.

SON PYONGHEUI CASE.

The hearing of the Son Pyongheui case by the Seoul Court yesterday morning in the courtroom in Chongdo the public were once again known that Dr. Midzuteru of Tokyo, would on behalf of the prisoner during the hearing session Mr. Midzuteru spoke. He advanced by the prisoner asking the Court to be committed by the Court of the Publication Preservation Law. The Court sentenced Son Pyongheui to three years' imprisonment for the other prisoner to mete out to their terms ranging between one and two years. Mr. Midzuteru to be not guilty should be released. The Court resumed its recess.

REINFORCE

Necessity of Esprit de Corps of Japanese and Koreans.

Some are of the opinion that the Korean people should be treated with a high hand, as they are all time-servers in the truest sense of the word, saying, by way of proving their argument, that Koreans are going from bad to worse in their attitude towards Japan, in spite of the present Governor-General taking a civilized and lenient policy of administration. It is indeed more than once that criticisms of this kind have been directed against our administrative policy for Chosen. Some people go so far in their argument as to hold that repressive measures should be meted out to Koreans in order to keep them quiet. Far be it, however, from me to endorse this sort of opinion. It is true that some Koreans continue to be a menace to the peace and order of the country, but this cannot be said to furnish enough material for holding a pessimistic view of the situation in Chosen and for denouncing all the Koreans as unfit for any civilized government. Nothing profitable will be derived from putting forward such argument in the way of mutual understanding between the Japanese and Koreans. Mutual understanding between different peoples requires some due interval of time to be brought about, and will only be attained by kindness and good-will shown each other for a long time. The kindly feeling and good-will on the part of Japanese for Koreans mean that we must first sympathize with them in their situation and secondly lend them a helping hand as they tread the thorny path of self-awakening and enlightenment. Let it be our duty to put forth strenuous efforts to dispel the prejudice and misapprehension on the part of Koreans about us, and for achieving this purpose we must be sparing no such as possible of imprudent and careless references to Chosen and the Koreans. This is the best attitude the Japanese can adopt towards the Koreans, and I am sure that all intelligent men will support this opinion of mine.

Affinity Between Japanese and Koreans.

I do not think that the reconciliation of the two peoples is an impossible task, but am confident that it will ultimately be achieved. The reason wherefore I hold this view is that there is much in common between the Japanese and the Koreans, especially in points of physiognomy, ideas, and feeling as well as in those of manners and customs. In a word, the close affinity of the Japanese and the Koreans is too patent to separate the one from the other. As a matter of fact they were obliged by force of circumstances to remain separated from each other for some of generations. But it can be said that the Koreans are more closely related to the Japanese by the tie of blood than to the Chinese. I do not need any expert opinion to prove

to have given themselves up to self-abandonment, either by revolting against the Japanese régime and diverging from out of the normal way in their action and speech, but the moment they become aware of the real position their country occupies in world politics and see things from a higher point of view, I am sure they will eagerly grasp the hand we extend to them and help in our work of uplifting their fellow-countrymen.

In fact there are already many intelligent Koreans who are in a fair way to better understanding, and many who are fully enlightened with regard to the real situation. Accordingly what is the study of the question, by what means the reconciliation of Japanese and Koreans can quickly be attained.

Some people say that Toyotomi Hideyoshi, who invaded and over-ran Chosen in the 16th century, was the first one responsible for the gap between the two peoples, while others hold that the present disaffected psychology of Koreans has been given rise to by imprudent Japanese who are prone to look down upon them with anything but respect. All these opinions may be true to a certain extent. It is however, a historical fact that Hideyoshi did not originally intend to invade Chosen, but circumstances obliged him to cause much trouble to that country. Were Hideyoshi living at the present time, he would not have attacked Chosen. At any rate, let the past bury its past. As to the over-hearing attitude of some Japanese towards Koreans, there is no gainsaying that they have injured the feeling of Koreans, and the rancour harboured and shown by Koreans against Japanese has caused the latter to entertain ill-feeling against the former. I am confident, however, that this bitter feeling between the two peoples will disappear as times change. Let us look back upon the conditions that existed in Japan about fifty years ago. In those days even within the confines of the small island country, people of different localities felt antipathy to one another. This condition exists to a certain extent even to-day. Such being the case, Koreans must see that the jingoistic spirit shown by certain Japanese towards them comes not from any bad motives, but is only an aftermath of the old Fendal system existing in Japan until sixty years ago. Koreans should not think that such people are representative of all the Japanese. There are many good Japanese, who are eager to gain their affection and confidence, and live with them in peace and harmony.

Guiding Principles for Administration of Chosen.

In fine, the successful administration of Chosen and the reconciliation of Japanese and Koreans are inseparable. One cannot be attained, unless the other is also accomplished. It follows that the responsibility for good government in Chosen rests wholly upon the shoulders of both peoples. Ac-

and then went on committed by the p of the Publication Preservation Law. sentenced Son Pyon three years' imprec for the other prison to mete out to them terms ranging lety year. Mr. Midzu era to be 'not gl should be released. The Court rose recess.

Extract from letter from Rev. S. A. Moffett to Dr. Brown, dated Oct. 16, 1920.

(Original in File 21-41)

The most recent news I have shows a disturbed situation politically and a resort to violence on the part of a few Koreans. A bomb was thrown at the Police Station in Syenchun and afterwards Mr. Whittemore's house was searched in looking for the one who threw it. Apparently in the search a policeman stuck a revolver in Mr. Whittemore's face and not liking that Mr. W. made representations to the American Consul General.

On this matter however, I have so few details and so little knowledge of just what took place and in what connection that pending more complete information I can draw no inferences and none of this should be made public as coming from me.

I do not think Mr. Whittemore would want this published.

Another item is the arrest of a British subject-Mr. Shaw who lives in Antung Manchuria and his detention in prison in Seoul. He sent over the line into Korea to meet his family coming from Japan and was arrested. He has apparently actively assisted Koreans in troubles between Manchuria and Shanghai.

I see the report of the S. S. Convention Tokyo says that no Chinese and only one or two Korean attended and that the Chinese told the Missionaries that if any attended they been not return to China. There is no question the feeling on the part of Chinese and Koreans against the Japanese is not only intense but determined and is made up absolutely independently of what we foreigners may think or advise. The Japan Advertiser recently published translation of articles in the Kokumin Shir (a reputable paper) violently attacking the missionaries in Korea by name-mentions Dr. Aviston, Mr. Billings, Underwood, Koons, Cram Schofield, Linton, Miss Bergman, Moffett, Holdecroft, McCune, Miss Wagner, Wasson, and the former American Consul General Bergholz. The article was by a former government official in Korea.

My dear dear Jamie:
Your letter I forwarded to cousin Emma without taking the address so I trust - to my memory. Correct me if need be and you receive this.

Letters from your father and one from your mother came to me today by the same mail! Quite a coincidence. I shall want to hear from you and of the little affair which make your life there. What is your diet -

there? Do you have meat
and what-about-eggs?
Is it-allowable for you
to supply for yourself, eggs
if you should wish more?
With an egg beater, it-w'd

Do you remember the
leaflets on the Japanese
question which you took
to show to your father?
Did he read them?

This is a serious ques-
tion for California es-
pecially. As Christians

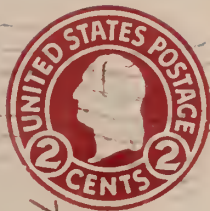

we surely desire their
salvation - yet - just
how truly our people
can with safety allow
them abiding here, is

a question. Do you
see Mrs. Sharrocks or her
family? The cold weath-
er is approaching and I

feel the change already.
Our fall rains have
begun. You will have

brother return to Korea
you will feel lonely

Dear Annie: I received your related
letter and was glad to get it.
Did you speak to Mr. Hill after his
address to the boys. I wish you would
when he speaks. He is very good. I
was in your room and was in your room
in Korea

and you write as an associate member of the
Church. I will write to you and you
write to Dr. Baird for a letter you
for.

The shoes surprised you - did they? Well
I'll be glad to see them as you know.
I will write further with some photos &
two big ones. I mean to have a book my name here but
no one but the other blank - so Mary
from your mother who was with us a year

be satisfied in getting a new issue - but this one is a good one
and will last for a long while yet. Put in a little time
on stamp - for 'an' - but not to the neglect of shares
reading or anything more important.
I should be interested to know how you come out on Department
and whether the two will pass easily without another point
against you.
Charles is being well and he is so happy - can be just come

Jamie Boy:

I was glad to get your letter of 24th and shall be glad to hear of your call upon Mr + Mrs. Hatch.

What do you think of the Cosmopolitan Club. Jessup is a good fellow isn't he? Are there any in that Club the right sort? and is that the Club you were asked to join?

I knew the shoes & job for you were a little long but I thought you might need them so - if you are still growing in your feet. Wear your old ones all you can and keep them for special occasions and if you go for long walks on Sunday change your shoes first. Do you still want me to send on your large heavy shoes for you here?

Get rubber heels on your shoes if you think you need them. I wish I could be with you & enjoy seeing the game you are interested in. Get as much general exercise as you can this fall and winter and be ready to enter into some

some frost and water froze here on the hill top. The day is clear and
mild. Charles is delighted with his "bike" and rides a great deal. We
go down on it in the morning then come up in auto at noon and
ride up the hill after school in afternoon.
Tomorrow night I am to speak to the ladies in their Church
room town. They asked I had news.

This is better day and we all wonder how it
is coming out.

Mother writes to me & says I'll be home -
come by my side this time. I'll be there.

Remember this in the time of your
the next year a book for you to get.

Love also hope - some time as I can

well now. More than one party
to the end and I have many more students
in the school.

7 children and in one great case.
There is not all his money. Has such
money so is staying here from 2-11
7 months and all the night or soon
with her is staying in father.

Dear Jennie:

Another great note to

all for but four shoes are ready
for mailing by Parcel Post. With them

two four pair of socks - Just for
must sew your name on.

Try these and see how for the other
and let the room after the box
when the article.

Also a handkerchief which has your
name on it. You must not use this
tuck me home for ordinary use in
school. You must have white handkerchiefs.

Well - the election! What a landslide!

Indiana was Republican or 2000 to 2000.

All the county people are interested in
elected and the Congressman.

I am sure the "boys" control Congress

and the young. I think so this

Means that Japan will not be allowed
to divide all the China.

Some Press account they show there
is still considerable disturbance in
Korea.

Waltham's last letter says all well -
no trouble from the fair - some long also.

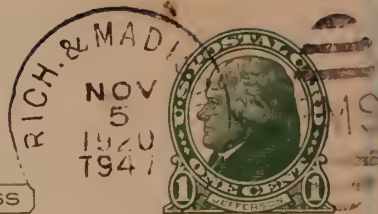

Uncle I don't want to see more down to town
on that. It is not cold yet but is

Chrysomel.
Am eager to see what your truck say.

With love from
Father

Dear Annie:

I can see glad to get
four letters forwarded to me from
Madison. I have been so on the
move and speaking so often that I
have not been able to write you,
I have had my Thanksgiving with Uncle
Will and his ten children - a great
bunch of happy youngsters. Hope you
have had a good Thanksgiving Day.
I'm about Christmas - I will de-
cide when I get back to Madison
but it seems to me it must be

for you to get away a day each a job work a
day or two rate of you come on to Madison
and then let me know in your next letter
which should reach me at Madison about
Dec. 4-6. I shall reach there there.

We must have our Christians together for
there are so many things we want to talk over.
Before you finish the term I want you to have
a talk with Mr. Gaefer or whoever takes charge
of you and ask them just what you can tell
me about your work in school - your standing -
and prospects. Tell them you want to know just

either that you come on to
Madison even if only for a few days
or that I accept Uncle Tom's kind
invitation that you and I spend Christmas
holidays with him in New York City.
I don't want us to be separated from
Charles and Herbert & can take them
to New York also.

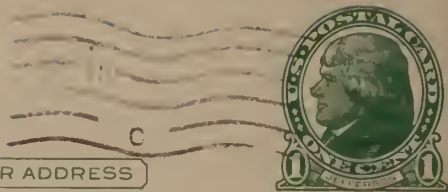

Now what do you think? Would
you rather come on to Madison or
have me meet you in New York
for several days there with Uncle Tom?
Let me know just how many days
you are to have? What is earliest train
you can leave Mt. Hermon and just
at what day and hour you must get
back there. Ask if it will be possible

exactly ~~now~~ they think. You have done - for
I'm sure that is our principle - always to
face facts fairly and squarely and to be frank
in all our dealings. Then you and I can
talk over things - ~~knowing~~ just how to
stand. Tell me more about Home when
you can to work with.

Will send you more of those socks. Get along
some way without a new sweater or overcoat
until we meet at Christmas time. Then we will
fix 'em up. But will be only about 3 weeks now.
You ought to write to Dan. He has written you several
times. Has sent me your financial account, the rest
you can. With lots of love
Father.

Dear J. I have had a strenuous walk here speaking
about twice a day. Today had a bath twice in
receiving lessons from Mrs McE. of ten thousand
more for Slavery Building - so we can build
this thing. Am happy one it of course.
Lean in a few hours for Madison + will write you
from there. Rather think I will plan to spend
Christmas in New York City with you - guests of
Uncle Tom. Will let you know soon.
A good letter from Mother. Will send to you soon.
Keep up your letters to me at Madison. Love
Father.

Dear Jennie:

Returned here yesterday, after last night at a
Honor Campaign meeting for enrollment and leave today for
Indianapolis to speak at similar meeting there tonight and
to remain over Sunday for several addresses.

Charles was mighty glad to see me and we looked forward
and had you with us.

I had hoped to find a letter from you that might make
Christmas plans. I must hear one as soon as possible
telling me when it is possible for you to get away and
how long your vacation is to run. I want exact dates
and hours so as to be able to plan the train.

We may spend the holidays in N.Y. City with Uncle Sam,
in which case I will take Charles too.

You have never sent me any report of your accounts and
I do not know what you have on hand or how much you have
drawn for that I left with the Treasurer.

You should take time for this. I must know about your
expenses. Send me the best report you can even though it
is imperfect and incorrect.

Had a fine trip - got the P. 1000 from Mrs. MacPouch for services,
Sunday. The Kenner case & matter in July on account of Mrs.
Sim's sickness. I saw Bruce Hunt in Chicago. He is a Freshman
at Western College and likes it very much. Let's get
me in to see & return your Indianapolis.

Dear Jennie:

All aboard for New York for Christmas.
We have decided - now that I can get home and
can find hotel and can make definite plans.
I shall expect you to go from Mt. Vernon to New York
on 17th or 18th perhaps the 18th & think for I should
rather you reached New York the Saturday afternoon instead
of Sunday night.

Now note that you can leave Mt. Vernon Saturday morning - Chase
cars at Greenfield and again at Springfield and reach
New York early in the afternoon - going from Springfield to
the New York, New Haven and Hartford road, which will
land you in the Grand Central Station New York.

I shall write Uncle Tom and I expect you to write him or
if necessary telegraph him so he will surely know or
at least know you will arrive in New York and can meet you.

Remember N.Y. is the biggest city in the world and you can't
easily find your own way about.

You will be with Uncle Tom one Sunday the 16th and Charles
and I will join you as soon thereafter as we can - leaving here
on 20th and probably stopping one day at Buffalo on business.

We to reach N.Y. on the 22nd but it may be the 23rd.

You will have to see N.Y. just but return on 27th so will have
5 or 6 days together in New York - and think a time we will

Can not know whether will enjoy it.
Wear your best clothes of course and take along your best
trays in neckties, shoes, collars, hdkfs &c. Your suit case
& course will hold enough.

You had better mention we about money matters - as I have
frequently requested - do have us some way of running here you
are paid financially but surely you can handle them enough
on hand to settle all accounts and pay your way to New York
and have some over. Do not start off with too small an
amount of money - draw from the Treasurer all you think you
should have and tell him & write him to do so.

Also do not carry it all in one pocket.

Ask questions along the way of conductors &c as as to be
sure you get on the right train and especially in changing trains
at Greenfield and Springfield. You can buy a ticket through
from N.Y. return to New York & back.

I will delight for tomorrow morning so that you will
have time to make your arrangements.

You asked me to send you a night letter along for when
he will meet you. Be sure to get his address - that is his
hotel address so you will know where to find him if he should
not meet you at Station.

My - but we shall be glad to see you and have a great time
we will have. Charles is excited over the prospect.

Love from us all. Father.

Write me at once upon receiving this that you plans will be.

Dear Sam -

Your card from Sidney recd.
Says much excited over the book
which came today. I will look
it up definitely. I say don't read
I don't like it cause it makes
me tired. Another Charles I sup
pose.

We leave for school Thursday and
are busy making my winter
clothes for the boy & getting the
house hot up. We have lots of
things I am astonished. We
have some cans green corn
& such etc.

at present are in town but
will be in Miss White's house
at a luncheon at the 4th
house. Mr. H. went and to say
but can only stay two weeks & I
will be longer. You send

Dear Jamie: -

I got my bicycle last Monday and have enjoyed it. I'd have been riding it to school. The name of it is Westminster.

I been gathering walnuts for quite a while.

I am getting along really well in school. How are you getting along?

Last Sunday we went out to James' via church where father preached on Korea. I wish you could have been with us.

I'd hope to see Christmas. We have missed you greatly.

I have been going to a serial movie every Saturday. It's razz, turned cold here just a bit three or four

days ago. And ever since it has been cold it has been raining quite a lot, and has been windy all the time. I am going to write to Harry B. and ask him about the pigeons.

He had to fix the iron for the top and he had lots of things in his house.

Friday night the Madison basketball team went up to Carrollton and played against the Carrollton team and Madison was beaten 26 to 16. In the fourth of Nov. there is to be a big basketball parade after which Madison will play Prudard. The game is to be here. There are to be 16 games in Madison and 17 game away from Madison.

Last night I all planned to go down town but just before

I started Sam and Bruce came running over all dressed up in new clothes. Sam was dressed in a red suit as was Harry and Bruce was dressed in a spotted suit as a reason they chased us all around and we acted as though we were scared. After which we went down town and saw many funny costumes. When we came home we played a few games of rock and then we went to bed. I'll write again.

Love God by with much
Sincerely
Charles W.
